

PPFMETAL
FABRICATING INC

MISSION

We believe in service beyond expectation, achieved through a constant desire to anticipate and fulfill evolving customer needs. We are dedicated to pushing the limits of excellence, standing at the forefront to provide the finest and safest environments attainable in the industry.

A welder wearing a blue helmet and protective gear is working on a metal structure in a dark industrial setting. The welder is wearing a light-colored jacket and blue jeans. The background is dark with some red and white markings. The text "CUSTOM METAL FABRICATION" is overlaid in the center of the image, enclosed in a blue square frame.

WHAT WE DO

We work directly with your company to make sure your objectives are our objectives. We provide you with up-front cost estimates, efficient turnaround schedules, and detailed planning. Throughout the duration of the project, we remain in contact with your company to ensure all of your goals are achieved on time and on budget.

We take great pride in providing our clients and customers with the highest quality products and services. We require all our welders to be certified in the weld process necessary for their specific job.

ASME, S & U stamps for assembly of power boilers and fabrication of pressure vessels

National Board "R" stamp for repair and alterations of boilers and pressure vessels
